# AT THE RACES

A Simple Fun Activity for 4 to 20 players

## INSTRUCTIONS

Decide on how many races you are going to play up to maximum of 8.

Each race lasts no longer than 5 minutes, but also allow plenty of time for players to decide on what runner they are going to chose.

A bookie/dealer is selected and at the start gives each player an equal amount of money. Ideally £10 for each race you are going to play, plus some extra at your discretion for a couple of larger bets throughout the game.

Players pick a runner from 1-8 and are given a "Fun Betting Slip" with their chosen runner in that race. (*Note*) try to encourage players to have different runners from each other. If you want to add some fun you can get players to make up a name for their chosen horse.

It is then decided which race is played from DVD by selecting a race number from 1-9. That race is then selected-*and their off...*

The winner receives the total amount of money taken for the race.

If there is more than one winner the prize money is divided equally. (*Note*) round down the prize money to be divided by the nearest £10 if required: i.e. £90 divided by 2 = £40 each and £10 to bookie.

All the "Fun Betting Slip" are handed back to the bookie and you repeat the same as above for the number of races that you decided on.

**The winner is the player with the most money at the end of the game.**
